Professional Summary

Full-Stack Developer with 1 year of full-time professional experience and 1 year of hands-on full-stack bootcamp experience, delivering scalable, production-grade applications. Contributed to a large-scale marketplace platform supporting **100K+ users** and real-time sales tracking systems for UAE-based clients. Demonstrated ability to rapidly learn and adapt to new technologies, including independently learning React Native to deliver mobile solutions. Experienced in improving performance, accelerating feature delivery, and building reliable systems using React, Next.js, Node.js, Express, MongoDB, AWS, and CI/CD pipelines.

Technical Skills

Frontend: React, Next.js, Redux, Redux Toolkit, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Microservices (basic exposure)

Database: MongoDB, Schema Design, Aggregations, Query Optimization

DevOps & Cloud: AWS (EC2, S3), VPS Deployment, Nginx, PM2, Docker, GitHub Actions (CI/CD)

Real-Time Systems: WebSockets, Socket.IO, WebRTC

Mobile Development: React Native

Testing & Quality: Jest (Basic Unit Testing), Postman (API Testing), Code Reviews

Programming Fundamentals: Data Structures & Algorithms (learning and regular practice)

Tools & Practices: Git, GitHub, Agile/Scrum, Clean Code, Performance Optimization, Rapid Prototyping, AI-assisted development workflows

Professional Experience

Full-Stack Developer

May 2025 – June 2026

Digitel (UAE-based) — Remote (Calicut Cyber Park)

- Contributed to a large-scale freelancer marketplace platform serving **100K+ users**, focusing on scalability and performance.
- Developed full-stack features using React, Next.js, Node.js, Express, MongoDB, Redux Toolkit, and REST APIs.
- Built and maintained a real-time sales tracking and lead management system with auditing and accountability.
- Improved production stability by resolving critical issues and optimizing backend API performance.
- Deployed applications on VPS and AWS using Nginx, PM2, Docker, and GitHub Actions CI/CD pipelines.
- Rapidly learned React Native to deliver mobile applications for internal tools and UAE client projects.

Additional Experience

Full-Stack Developer Intern

2023 – 2024

Brototype — Full-Stack Development Bootcamp

- Completed an intensive, project-based full-stack program focused on the MERN stack.
- Built multiple end-to-end applications with frontend, backend, and database integration.
- Worked in team-based environments following Agile practices and Clean Architecture principles.
- Gained strong foundations in REST APIs, authentication, deployment workflows, and scalable system design.

Projects

Freelancer Marketplace Platform

Production — Private

- Developed and maintained a large-scale marketplace platform supporting 100K+ users.
- Implemented scalable backend APIs and optimized database queries for high concurrency.
- Integrated role-based access control and secure authentication mechanisms.
- Improved performance and reliability under heavy traffic conditions.

Real-Time Sales Tracking & Lead Management System

[GitHub](#)

- Built a real-time platform for lead distribution, tracking, and auditing.
- Enabled accountability and performance monitoring for active sales teams.
- Implemented real-time updates using Socket.IO.
- Designed the system to support daily production workflows.

Bootcamp Team & Task Management Platform (Bootcamp Project)

[GitHub](#)

- Developed a full-featured team and task management platform for bootcamps and organizations.
- Implemented real-time notifications, live chat, and video calls using Socket.IO and WebRTC.
- Built features including task assignment, batch management, slot booking, and payment workflows.
- Designed multi-role access for Super Admin, Admin, Coordinators, and Students using Clean Architecture.

React Native Mobile Applications

[GitHub](#)

- Independently learned React Native to meet project requirements.
- Developed mobile applications for internal management and client-facing use cases.
- Integrated backend APIs and authentication flows.
- Delivered functional mobile solutions within active project timelines.

Education

B.Tech in Computer Science & Engineering

2019 – 2023

APJ Abdul Kalam Technological University

Availability

Open to opportunities in India, GCC (UAE, Qatar, Saudi Arabia), and Remote roles.
